

# How Does It Work For Businesses

#1 Direct Selling Solution in Business Today!

## HARNESS THE POWER OF DIRECT SELLING

**ZERO START UP COST - FULLY HOSTED & MANAGED - RAPID LAUNCH TAKING ORDERS IN 7 DAYS**

### 1 Launch Package

A Distributor must purchase a Launch Package from a Business before they are given access to that Business's Direct Distributor Page.

Each Business puts together their own Launch Package that must be sold for \$397 (this includes the \$199 Direct Distributor Activation FEE). Every Business will have its own webpage on the Easy Profit Network Platform that will promote their Launch Package to the entire Network of Independent Distributors, unless a Business has requested otherwise.

Launch Package orders are all processed by the Easy Profit Network and a shipping invoice will be forwarded to the selected Business for fulfillment along with the purchasing Distributor being added to the Business's Database.

Business receives \$170 per Launch Package sold. A Distributor can only purchase one Launch Package per Business and once purchased it gives them full access to that Business's Direct Distributor Page to make additional purchases. The funds (\$170) from the first 25 Launch Package orders for a business goes to pay for their Set Up and Activation Fee.

### 2 Direct Distributor Page

The Direct Distributor Page is where all of your Independent Distributors will have access to your pricing and your Business Information including trainings etc. Businesses have the freedom to set up their pricing and quantity requirements along with their own rules and regulations. All orders processed on this page are direct with the Business's payment gateway of choice and all funds go directly into their bank account. There is a flat 5% Network Fee on each order excluding S/H and taxes.

### 3 Business Connect

This is how a Business can promote, train and communicate with all the Independent Distributors who have selected their Business. The Business will have access to all their Distributor's Contact Information. Each Business has the ability to set up Auto Responders, Content Drip Systems and an Automated Webinar Solution helping them to automate the entire sales process. The Business will also have full access to the Event Platform to create another revenue stream for their business.
